Quality Counts and the Texas Major Livestock Shows

Attention Livestock Project Exhibitors! New for the 2012 Major Stock Show Season – The Texas Major Shows along with the Texas 4-H/FFA program has adopted the Quality Counts program statewide. For the upcoming major show season, all exhibitors must have participated in Quality Counts. All exhibitors must be a Verified Quality Counts Participants by major show entry night. In order to become verified, youth must take a short 10 questions online exam and pass with at least 80% correct. Don't worry, if you don't pass the first time, you can take the test as many times as you need to reach the 80% mark. The online test is easy and takes less than 15 minutes to complete. You can do this in the comfort of your own home, on your own computer, on your own time schedule! Once you have passed the exam, you will receive a Quality Counts Exhibitor number. You can print out a certificate with the number on it and I would keep it for your records. On major show entry night, you will put your individual number on the entry forms for each major show that you plan on attending. Exhibitors and parents, it is YOUR responsibility to ensure that you have a Quality Counts verification number BEFORE major show entry night.

The 2011 State Fair of Texas will utilize the verification system on a voluntary basis, but I highly encourage you to go ahead and become Quality Counts verified for the State Fair. You will already have this done and won't have to take it again for the major show season. All of the 2012 majors will require the number on their entry forms that we will turn in during November 2011.

To take the Quality Counts Verification exam, please go to the Quality Counts website at <http://qualitycounts.tamu.edu/> and click on the verification link. From there, you can select 4-H, and register and take the exam.

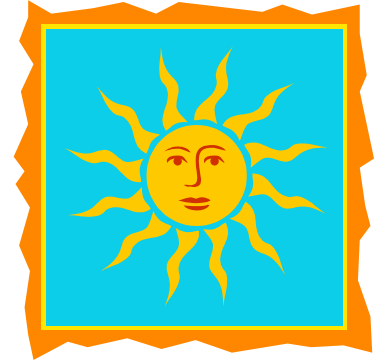

We will be sending reminders about this periodically, but I would highly encourage everyone to take the few minutes this summer and obtain your verification number. If you have any questions, please give Dustin a call at the Extension office at 512-943-3300.
